- Data Structures and Algorithms
- Object Oriented Programming

OBJECTIVE

- Seeking a Software Developer position in a fast-growing organization where I can leverage my expertise in software development, testing, deployment, and support.
- With a passion for problem-solving and innovation, I am eager to contribute to dynamic projects and collaborate with talented teams.

POSITIONS OF RESPONSIBILITY

ENTREPRENEURIAL CELL | INNOVATION AND DESIGN HEAD

Sept 2023 - Present

- I lead strategic direction and vision while overseeing the development and implementation of innovative solutions, fostering a culture of creativity and collaboration to drive impactful projects and boost our e-cell to great heights.

EXPERIENCE

EDUCARE GROW4TECH TECHNOLOGIES | FRONT END INTERN

April 2024 - Present

- Designed and implemented community-focused and e-commerce websites using React.js, ensuring seamless navigation and efficient performance.
- Delivered mobile-friendly and responsive projects, providing consistent user experiences across devices.
- Collaborated with backend developers and cross-functional teams, leveraging Figma for design, while continuously enhancing skills and adapting to new challenges.

PROJECTS

FOOD MANAGEMENT PLATFORM | FOOD FOLIO [Deployed Link](#)

- Tech Stack: React.js, JavaScript, CSS
- Seamlessly donate excess food to local charities and communities, reducing food waste and helping those in need.
- Efficiently track and manage your food inventory with real-time updates, ensuring nothing goes to waste.
- Create innovative recipes using available ingredients, promoting creative cooking and reducing food waste.
- Intuitive design and easy navigation ensure a smooth experience for all users, from donors to home cooks.

TRAVEL PLATFORM | ECO ESCAPES [Deployed Link](#)

- Tech Stack: HTML, CSS, JavaScript
- Developed a dynamic travel platform using HTML, CSS, JavaScript, and React.js, featuring intuitive navigation and responsive design for a seamless user experience.
- Designed a visually appealing and user-friendly interface with HTML and CSS, ensuring a polished and consistent look across all devices.
- Implemented responsive design elements to ensure accurate travel information and an optimized user experience across all devices.
