EDUCATION

- Vivekananda Institute OF Professional Studies -Technical Campus, New Delhi** 2021 - 2025
- Course: B.Tech | Branch: IIOT | CGPA: 8.23 /10 (till 7th semester)
- Queen's Convent School, New Delhi** 2007- 2021
- CBSE (Class XII), Aggregate 76% | • CBSE (Class X), Aggregate: 90%

SKILLS

Programming Languages: JavaScript, TypeScript, C++

Tools & Platforms: Git, GitHub, Vercel, Firebase, Figma, Framer

Frameworks & Libraries: React.js, Next.js, Redux, Tailwind CSS

Coursework: Data Structures and Algorithms, Database Management systems, Computer Networks

WORK EXPERIENCE

- Forgebyte | Front End Developer Intern** Dec 2024 – Jan 2025
- Led the design and optimization of a responsive music platform using Next.js, improving performance by 15%.
 - Built 10+ reusable UI components with React.js and Styled Components, cutting dev time by 20% and boosting response speed by 25%.
 - Applied accessible, responsive design and advanced JavaScript to enhance UX and ensure cross-browser compatibility.
- Educare Grow4tech Technologies | Front End Developer Intern** Apr 2024 – Sep2024
- Developed and optimized responsive React.js apps, cutting load speed by 30% and boosting engagement across devices.
 - Translated 20+ wireframes into interactive, accessible web pages and built 15+ reusable components for scalability.
 - Collaborated with 4+ designers and backend developers to integrate RESTful APIs, ensuring seamless data flow.
- Freelancer | UI / UX Designer** Sep 2024 – Present
- Designed high-fidelity prototypes and UI systems for early-stage startups, including the first complete prototype for a pet service providing app.
 - Focused on user-centric design, collaborating remotely with cross-functional teams to improve usability and design consistency.

PROJECTS

- SnapSummary – Ai summarizer** [Deployed Link](#) Mar 2025
- Built a responsive web app with React and Redux Toolkit to generate AI-powered article summaries from URLs using the RapidAPI summarizer.
 - Designed an intuitive UI with Tailwind CSS, featuring copy/download options and animated interactions for improved user experience.
 - Optimized performance and user flow, enabling fast summary generation and seamless interaction across devices and screen sizes.
- Foodfolio - Food Management Platform** [Deployed Link](#) Mar 2025
- Built a responsive platform to reduce food waste by 20% through real-time inventory tracking and surplus food donations.
 - Developed an intuitive UI with React.js, ensuring smooth navigation and compatibility across 4+ device types.
 - Focused on accessibility and performance to deliver a seamless, user-friendly experience with real-time data integration.
- Cinecore - Movie Platform Platform** [Deployed Link](#) Jan 2025
- Developed a personalized movie recommendation platform using React.js, reducing user search time by 30% and enhancing engagement with interactive UI and animations.
 - Optimized speed and responsiveness, ensuring a seamless experience with page load times under 2 seconds across devices.

EXTRA-CURRICULAR ACTIVITIES

- Head of the Innovation and Design Department of E-Cell Jan 2024 – Sep 2024
- Member of the Creative Society Jul 2022 – Dec 2023
