SKILLS

Programming Languages: JavaScript, TypeScript, HTML, CSS, C++
Tools & Platforms: Git, GitHub, Vercel, Firebase, Figma, Framer
Frameworks & Libraries: React.js, Next.js, Redux, Tailwind CSS, React Testing Library, Flutter

WORK EXPERIENCE

Front End Developer Intern 04/2024 - 09/2024
Educare Grow4tech Technologies Remote

- Developed and optimized responsive web applications using React.js, enhancing page load speed by 30%, increasing user engagement by 20%, and ensuring compatibility across 3+ major browsers.
- Coordinated efforts between design and development teams, facilitating seamless implementation of UI/UX enhancements across platforms; focused on fixing the three biggest causes of user drop-off during testing phases.
- Worked closely with design and development teams to implement UI/UX enhancements, increasing user retention by 15%.
- Developed 10+ reusable React components, accelerating feature development by 20% and improving code reusability across 2+ projects.

PROJECTS

Foodfolio - Food Management Website 09/2024

- Implemented an interactive platform for meal planning and inventory tracking, achieving a 25% reduction in food wastage and enhancing user engagement across 10+ tests.
- Revamped a responsive, interactive UI with React.js, ensuring smooth navigation across devices and tested on 10+ devices for compatibility and performance.
- Implemented features for easy recipe discovery, food donation, and inventory management, promoting efficient food usage.
- Deployed on Vercel for scalable, seamless performance, achieving consistent load times under 3 seconds, with the platform prepared for higher user traffic.

Cinecore - Movie Platform Website 10/2024

- Created genre-based browsing and a personalized recommendation system for a movie platform, enhancing content discovery by organizing over 500 titles and generating tailored recommendations to improve user engagement.
- Optimized an engaging, responsive interface using React.js, enhancing user experience and retention.
- Added search and filter functionalities, enabling users to quickly locate preferred content from a library of 500+ movies and shows.
- Hosted on Vercel, achieving rapid load times under 2 seconds on average, delivering a seamless and immersive user experience across varying traffic levels.

EDUCATION

Vivekananda Institute Of Professional Studies 12/2021-07/2025
Bachelor of Technology in Industrial Internet Of Things – 8.2 CGPA New Delhi

Coursework:

- Data Structures and Algorithms*
- Database Management Systems*
- Computer Networks*

Queen's Convent School 04/2019 - 04/2021
Senior Secondary – 76% New Delhi

EXTRA-CURRICULAR ACTIVITIES

Head of the Innovation and Design Department of E-Cell 01/2024 - 09/ 2024
Member of the Creative Society 07/2022 - 12 /2023
